SWALLOW FALLS STATE PARK -On July 10, 1998, MDE finalized an administrative consent order with MES authorizing an emergency discharge of up to 60,000 gallons per day of treated wastewater from the Swallow Falls Wastewater Treatment Plant to Toliver Run. The emergency discharge is necessary to allow discharges from the plant's wastewater lagoon, which has reached capacity due to heavy rainfall since May. Under normal conditions, the plant is not permitted to discharge wastewater to surface waters during the summer months. The controlled emergency discharge of treated wastewater must comply with all established effluent limitations of the plant's discharge permit. Status: The consent order will remain in effect until September 7, 1998. MES has agreed not to discharge wastewater from the lagoon between the hours of 10:00 AM and 5:00 PM each day unless overflows are imminent. (Reference # CO-99-0007)
